INDOOR/OUTDOOR COLLECTIONS 2016/2017

## LA MATERIA E LA LUCE: DALL'INVENZIONE ALL'ARMONIA. *MATTER AND LIGHT: FROM INVENTION TO HARMONY.*

Antonangeli Illuminazione nasce nel 1977, indirizzando la sua attenzione al design e alla creazione di corpi illuminanti di forte personalità, con la volontà di esprimere un concetto di luce che sia 'funzione' ed 'emozione' contemporaneamente. Nel 2007 Antonangeli entra nel mondo dell'illuminazione esterna con una visione inedita: creare una luce che all'esterno producesse le emozioni e la vivibilità che crea la luce in interno. Indagando il mercato e seguendo i suggerimenti di una nota paesaggista, Antonangeli dà avvio ad una serie di collezioni 'Outdoor', che ha come motto: "...bisogna rispettare il buio". La costante coerenza progettuale scaturisce dalla ricerca di soluzioni che non si limitano al semplice progetto formale, all'applicazione delle tecnologie, ma si cimenta con le materie e con i processi di lavorazione. Questo fa di Antonangeli un unicum senza paragoni. Ogni collezione nasce da uno studio approfondito: su materiali nuovi o tradizionali trattati in modo esclusivo, su soluzioni produttive antiche o mai sperimentate. Il risultato sono forme di luce sorprendenti.

*Antonangeli Illuminazione was founded in 1977 and immediately directs his attention to the design and creation of lighting with a strong personality: focusing its interest on a concept of light that is 'function' and 'emotion' at the same time.*

*In 2007 enters the Outdoor lighting world – the Outdoor with an unusual view hitherto: creating a light outside that would produce the same emotions and livability that normally creates the light in the interior. Carefully analyzing the market and the proposals and thanks to the suggestions of a landscape architect, Antonangeli gives rise to a serie of 'Outdoor' collections that has as its motto: "... we must respect the dark".*

*Antonangeli offers solutions which go beyond the simple formal project and technical applications by experimenting with unusual materials which requires special working procedures; at times craft, other times technically highly sophisticated. This alone has made Antonangeli an unicum in his field.*

*The Antonangeli's collections are made of a deep and patient study on traditional materials worked in a new way, new materials as well as productive solutions never before tested in the field of lighting. The result is exciting forms of lighting.*

Identità e ricerca.  
*Identity and research.*

Sottili linee di luce flessibile.  
Thin flexible lines of light.

# ARCHETTO

Archetto è un nuovo linguaggio luminoso di grande leggerezza e di straordinaria versatilità applicativa. Raggi di luce che attraversano lo spazio, escono quasi per magia dal suolo o sono semplicemente appesi o appoggiati a minimali strutture, costruiscono inedite suggestioni. Protagonista il silicone che ingloba la luce del LED, per una tecnologia brevettata (Luxall), che ha consentito di realizzare un elemento luminoso sintetico declinabile in molteplici soluzioni. La collezione si sviluppa all'insegna della pulizia formale per offrire, nell'utilizzo, libere e personali interpretazioni applicative. Archetto è flessibile, elastico, strutturale, innovativo, versatile, creativo, ecologico, durevole.

*A new language of great lightness and extraordinary versatility of application is created by Archetto. Light rays pass through space, come magically from the ground or are simply hanging or placed in minimal metal structures, building novel suggestions. The protagonist is the silicone that incorporates LED light, a patented technology (byLuxall), which has allowed us to create a bright synthetic element declinable in multiple solutions. The collection is developed in the name of clean lines to offers free personal interpretations and applications. Archetto is flexible, elastic, structural, innovative, versatile, creative, ecological and long-lasting.*

**Twist**  
design Gianfranco Marabese 2015

Profilo di luce continua generata da un'estrusione in silicone al cui interno alloggia una strip LED.  
Archetto Twist consente di realizzare linee curve o rette applicate in superficie o ad incasso.

Lunghezza massima profilo: 500 cm /taglio a misura ogni 5 cm

Strip LED bianco 3000/4000°K 500Lm C.A. al metro per entrambi.

Potenza 9.6W metro/24V/120 led per metro.

Profile of continuous light generated by an extrusion of silicone housing a LED strip.

Archetto Twist allows to realize curved or straight lines applied to the surface or recessed.

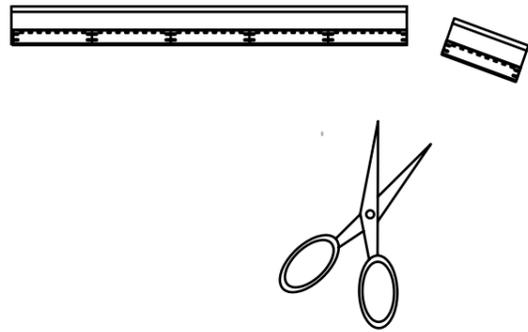

Maximum length of the profile: 196,85" /cutting to measure every 1,96"

LED strip white 3000/4000°K, 500Lm C.A. per meter for each one

Power 9.6W each Meter/24V/120 led per meter  
A meter (mt) is 39,37"

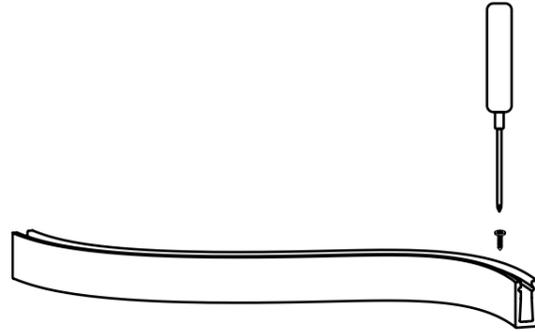

## Montaggio/Mounting

1

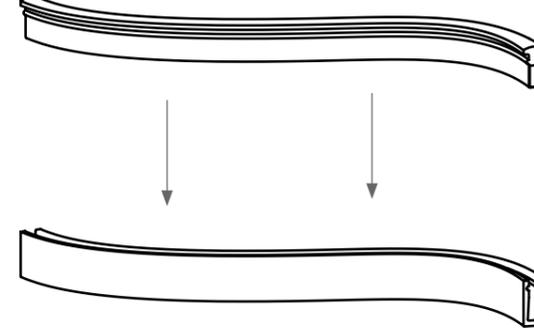

E' possibile tagliare Archetto Twist ogni 1,98"  
It's possible to cut Archetto Twist every 1,98"

2

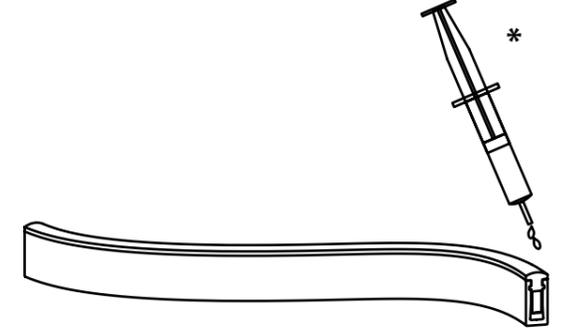

Fissare il supporto alla superficie/  
Fix the support on the surface

3

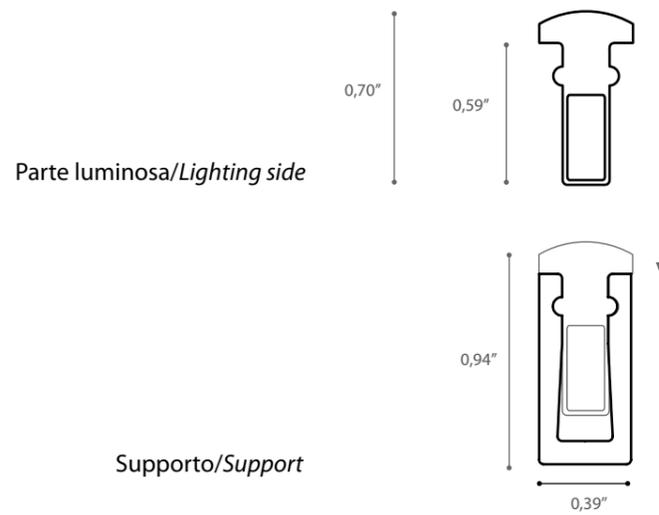

Inserire il profilo luminoso sul supporto con leggera pressione/  
Insert the lighting side into the support with a light pressure

4

Sigillare le estremità con silicone speciale/  
Seal the ends with a special silicone glue

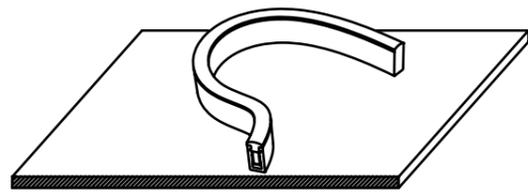

Parte luminosa/Lighting side

Supporto/Support

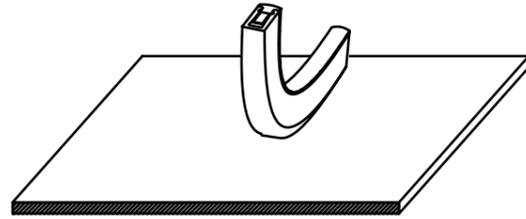

## Applicazioni/Applications

YES

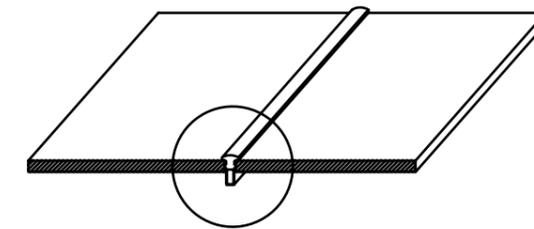

Piegare Archetto Twist tenendolo aderente alla superficie/  
Bend Archetto Twist keeping it adherent to the surface

NO

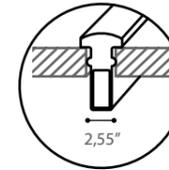

ATTENZIONE: non piegare Archetto Twist nel verso sbagliato/  
WARNING: do not bend Archetto Twist over the wrong direction

## Applicazione ad incasso/Inlay application

Inserire la parte luminosa in un taglio di larghezza max 2,55"/  
Insert the lighting side in a cut 2,55" of width

## Custom

design Theo Sogni 2012

Archetto Custom consente di ottenere soluzioni sartoriali di luce: linee di lunghezza variabile fino a 5 metri, particolarmente appropriate nella sottolineatura e nell'illuminazione, mai invasiva, di facciate, vetrine, percorsi di luce, installazioni.

Alimentazione: 24v.  
Led bianco: 3000/4000°k, 120 led/mt, 500Lm/mt, 10W mt.

RGB: 120 led/mt, 20w/mt.

Sistemi di controllo: radio / infrarossi / DMX.

A partire da 100 cm si possono richiedere multipli di 5cm. I pezzi sono forniti a misura con cavo di alimentazione lungo 100cm in neoprene. Isolamento/protezione all'acqua IP67.

L min. 100cm - max. 500 cm

*Archetto Custom allows to obtain lines of light with extensions dimensional variables up to 5 meters: tailoring solutions particularly appropriate in emphasis and lighting, facades, windows, light paths and installations.*

Power: 24v

White led: 4000°k, 120 led/mt, 500Lm/mt, 10w/mt

RGB: 120 led/mt, 20w/mt

Control's system: radio / infrared / DMX.

From 39,37" you can ask multiple of 1,96". The pieces are provided with suitable power cord 100 cm long neoprene. IP67 Waterproof.

Minimum length 39,37" - max 196,85"

A meter (mt) is 39,37"

Installation Note: Driver is for remote installation for model WR1 WR2 WR3

Archetto Flexible si flette e permette di creare archi e curve, a luce diretta e indiretta, con dimensione finale variabile, dipendente dalla curva impressa. L'acciaio armonico coestruso con il silicone, non mantiene la memoria della forma impressa, tornando sempre nella posizione originaria.

Archetto Flexible creates bright "arches" to direct and indirect light of variable sizes, dependent on the curvature you want to impart, for wall ceiling solutions. The spring steel coextruded with the silicone does not retain memory of the curve imprinted and always returns to its upright position.

# ARCHETTO

## Flexible

design Theo Sogni 2012

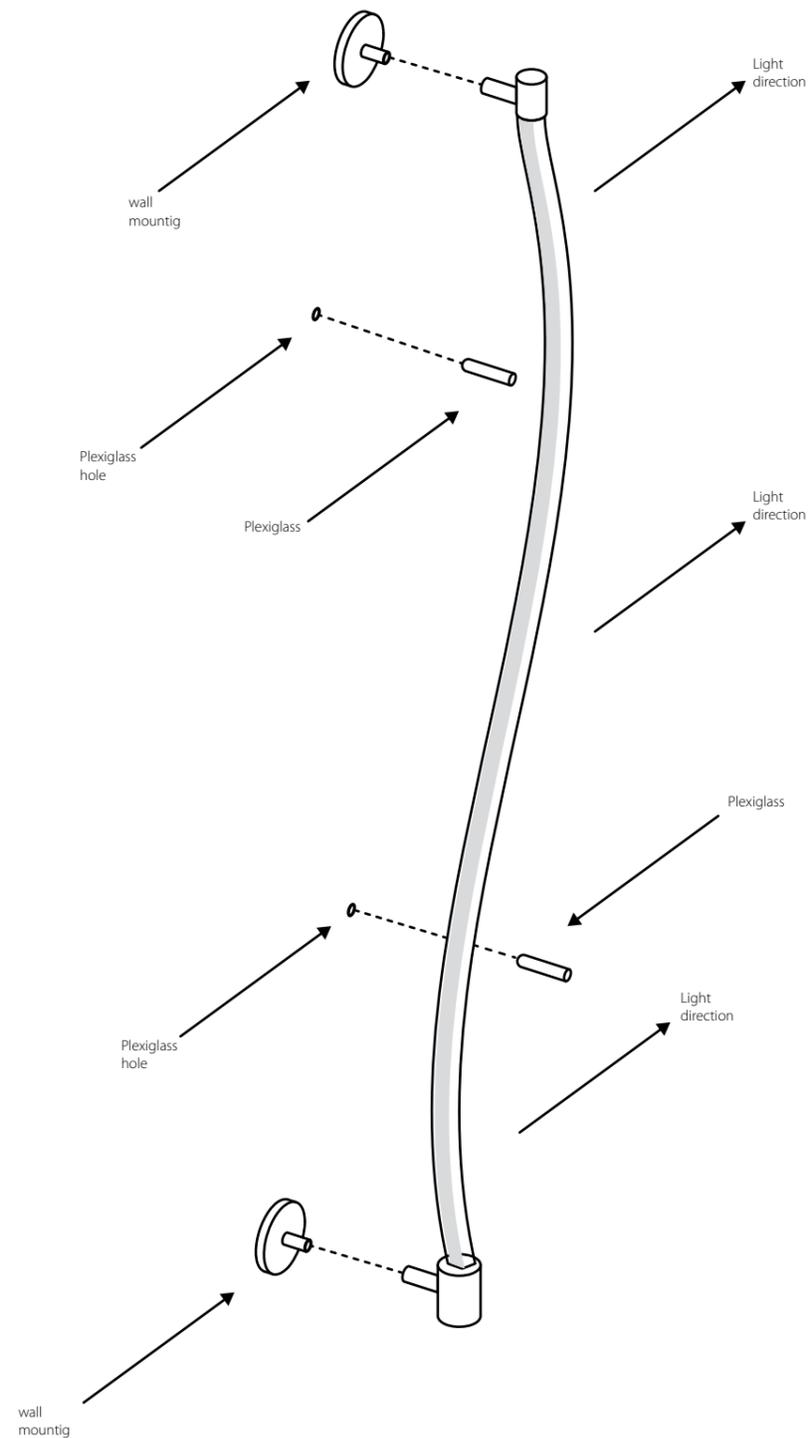

La versione a parete di Archetto Flexible, nelle misure di 185 e 250 cm, può essere applicata curvando l'elemento luminoso ottenendo grafie personalizzate.

*The wall version of Archetto Flexible to 185 and 250 cm length, can be applied by bending the light element getting personalized spellings.*

## Shaped

design Theo Sogni 2013

Con Archetto Shaped il silicone 'luminoso' diventa protagonista di sculture leggere: poetici oggetti di luce per applicazioni da terra, tavolo, sospensione o parete. Basi in metallo cromato o pietra lavica.

Steli in metallo cromato.

Alimentazione: 24v (inclusi)

Led bianco: 4000°k, 28w/mt, 240 led/mt, 1030Lm/mt

RGB: 120 Led/mt, 20w/mt.

Coestruso in alluminio e silicone.

Sistemi di controllo: radio / infrarossi / DMX.

On/Off Dimmer

With Archetto Shaped the silicone "bright" protagonist of light sculptures, to generate poetic objects of light for floor, table, wall or suspension's applications.

Chrome plated or lava stone bases.

Chrome plated structure. Power: 24v (included).

White led: 4000°k, 28w/mt, 240 led/mt, 1030Lm/mt

RGB: 120 Led/mt 20w/mt.

Aluminum and silicone coextruded.

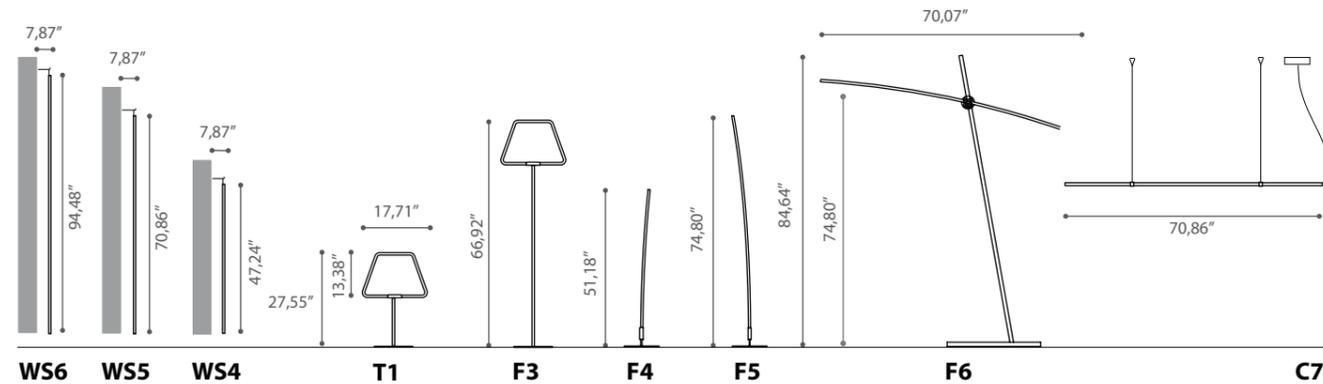

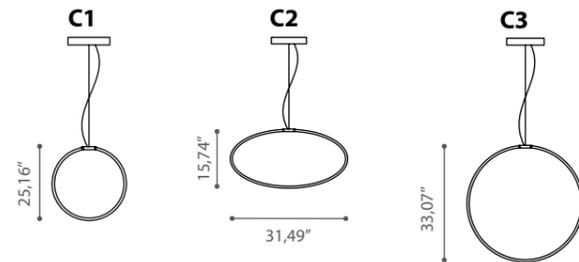

Control's systems: radio / infrared / DMX.

On/Off Dimmer.

# CONTATTO

design Gianfranco Marabese 2015

engineering Andrea Zandonà

Sistema d'illuminazione innovativo per ricerca e tecnica avanzate, che applica spot alle strutture, attraverso calamite, nelle versioni sospensione, parete, terra e incasso. Lo spot, a forma sferica, ruota all'interno di due metalli paralleli che fungono da contatto elettrico e da struttura. L'assenza di fili permette libertà di applicazione degli spot per quantità e posizionamento. L'uso di LED di ultima generazione e gli spot con frontale telescopico, creano coni di luce variabili da 20° a 40° di grande efficienza luminosa.

Materiali: metallo

Finiture: spot anodizzato nero o alluminio naturale,

struttura verniciato nero opaco o bianco

Fonte luminosa: LED 4,2W 12V 3000°K

*Innovative lighting system for research and advanced technical, which applies spot on the structures through magnets.*

*Available as suspension, wall, floor and recessed versions. The spot, spherical, rotates inside two parallel metals which act as electrical contact and structure. The absence of wires allows freedom of application of the spots for quantity and positioning. The use of latest generation LED and the telescopic spots create a variable from 20° to 40° cones of lights with a high luminous efficiency.*

Materials: metal

Finishes: anodized black or natural aluminium spot, black or white mat painted structure.

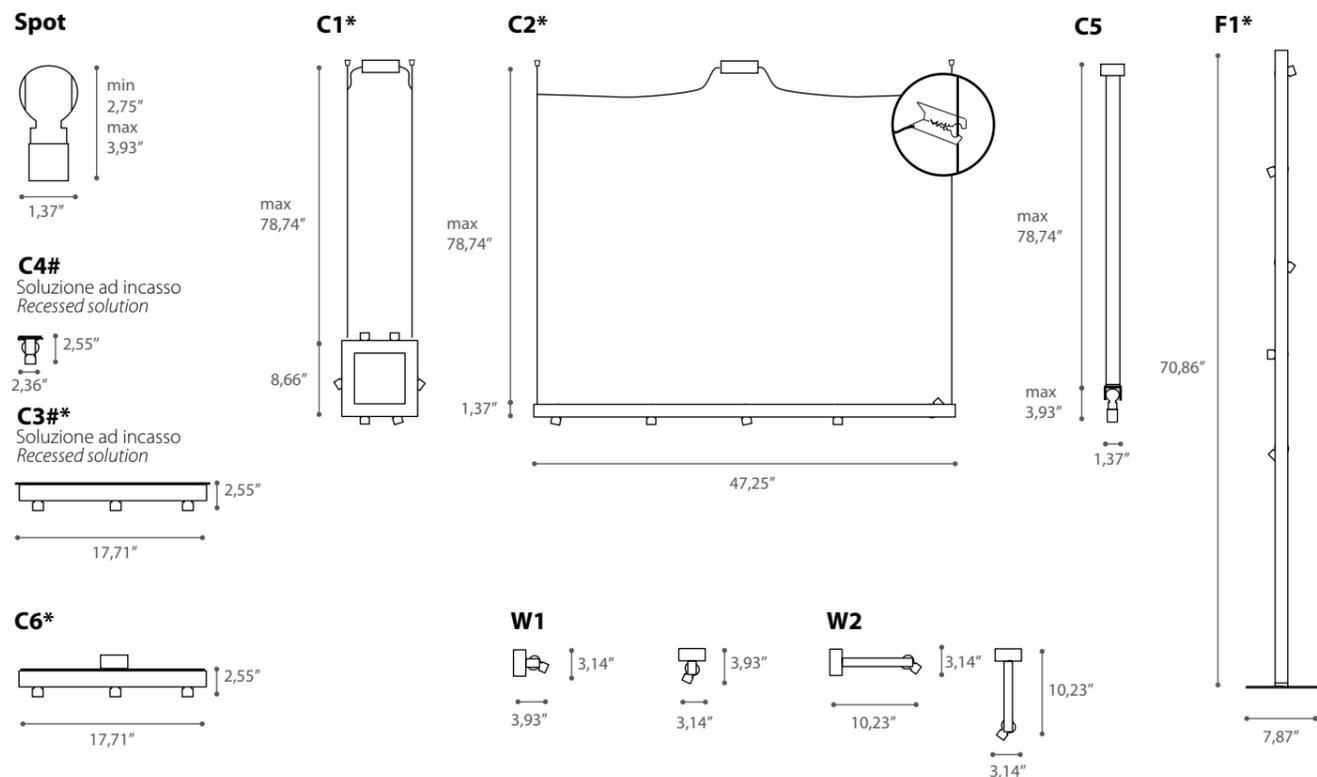

Light source: LED 4,2W 12V 3000°K.

\* AGGIUNGERE GLI SPOT ALLE STRUTTURE MULTIPLE: C1, C2, F1, C3, C6

\* ADD THE SPOTS TO THE MULTIPLE STRUCTURES: C1, C2, F1, C3, C6

Installation Note 1: models W1 W2 and C5 comes with a backplate to cover a standard octagon junction box

Installation Note 2: models C3 C4 require remote driver installation

Spot LED 4,2W 12V 450lm 3000°K min. 20°/ max 40°

**C1** solo struttura per 6 spot, trasformatore incluso/only structure for max 6 spot, driver included

**C2** solo struttura per max 5 spot, trasformatore incluso/only structure for max 5 spot, driver included

**C5** sospensione singola, alimentatore incluso/ suspended single lamp's spot, driver included

**F1** solo struttura per max 5 spot, trasformatore incluso/only structure for max 5 spot, driver included

**C6** solo struttura per max 3 spot, trasformatore incluso/only structure for max 3 spot, driver included

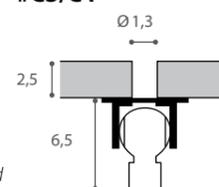

**C3** solo struttura ad incasso per max 3 spot, trasformatore non incluso/only recessed structure for max 3 spot, driver not included

**W1** parete corta, alimentatore e spot inclusi/short wall lamp, spots and driver included

**W2** parete lunga, alimentatore e spot inclusi/long wall lamp, spots and driver included

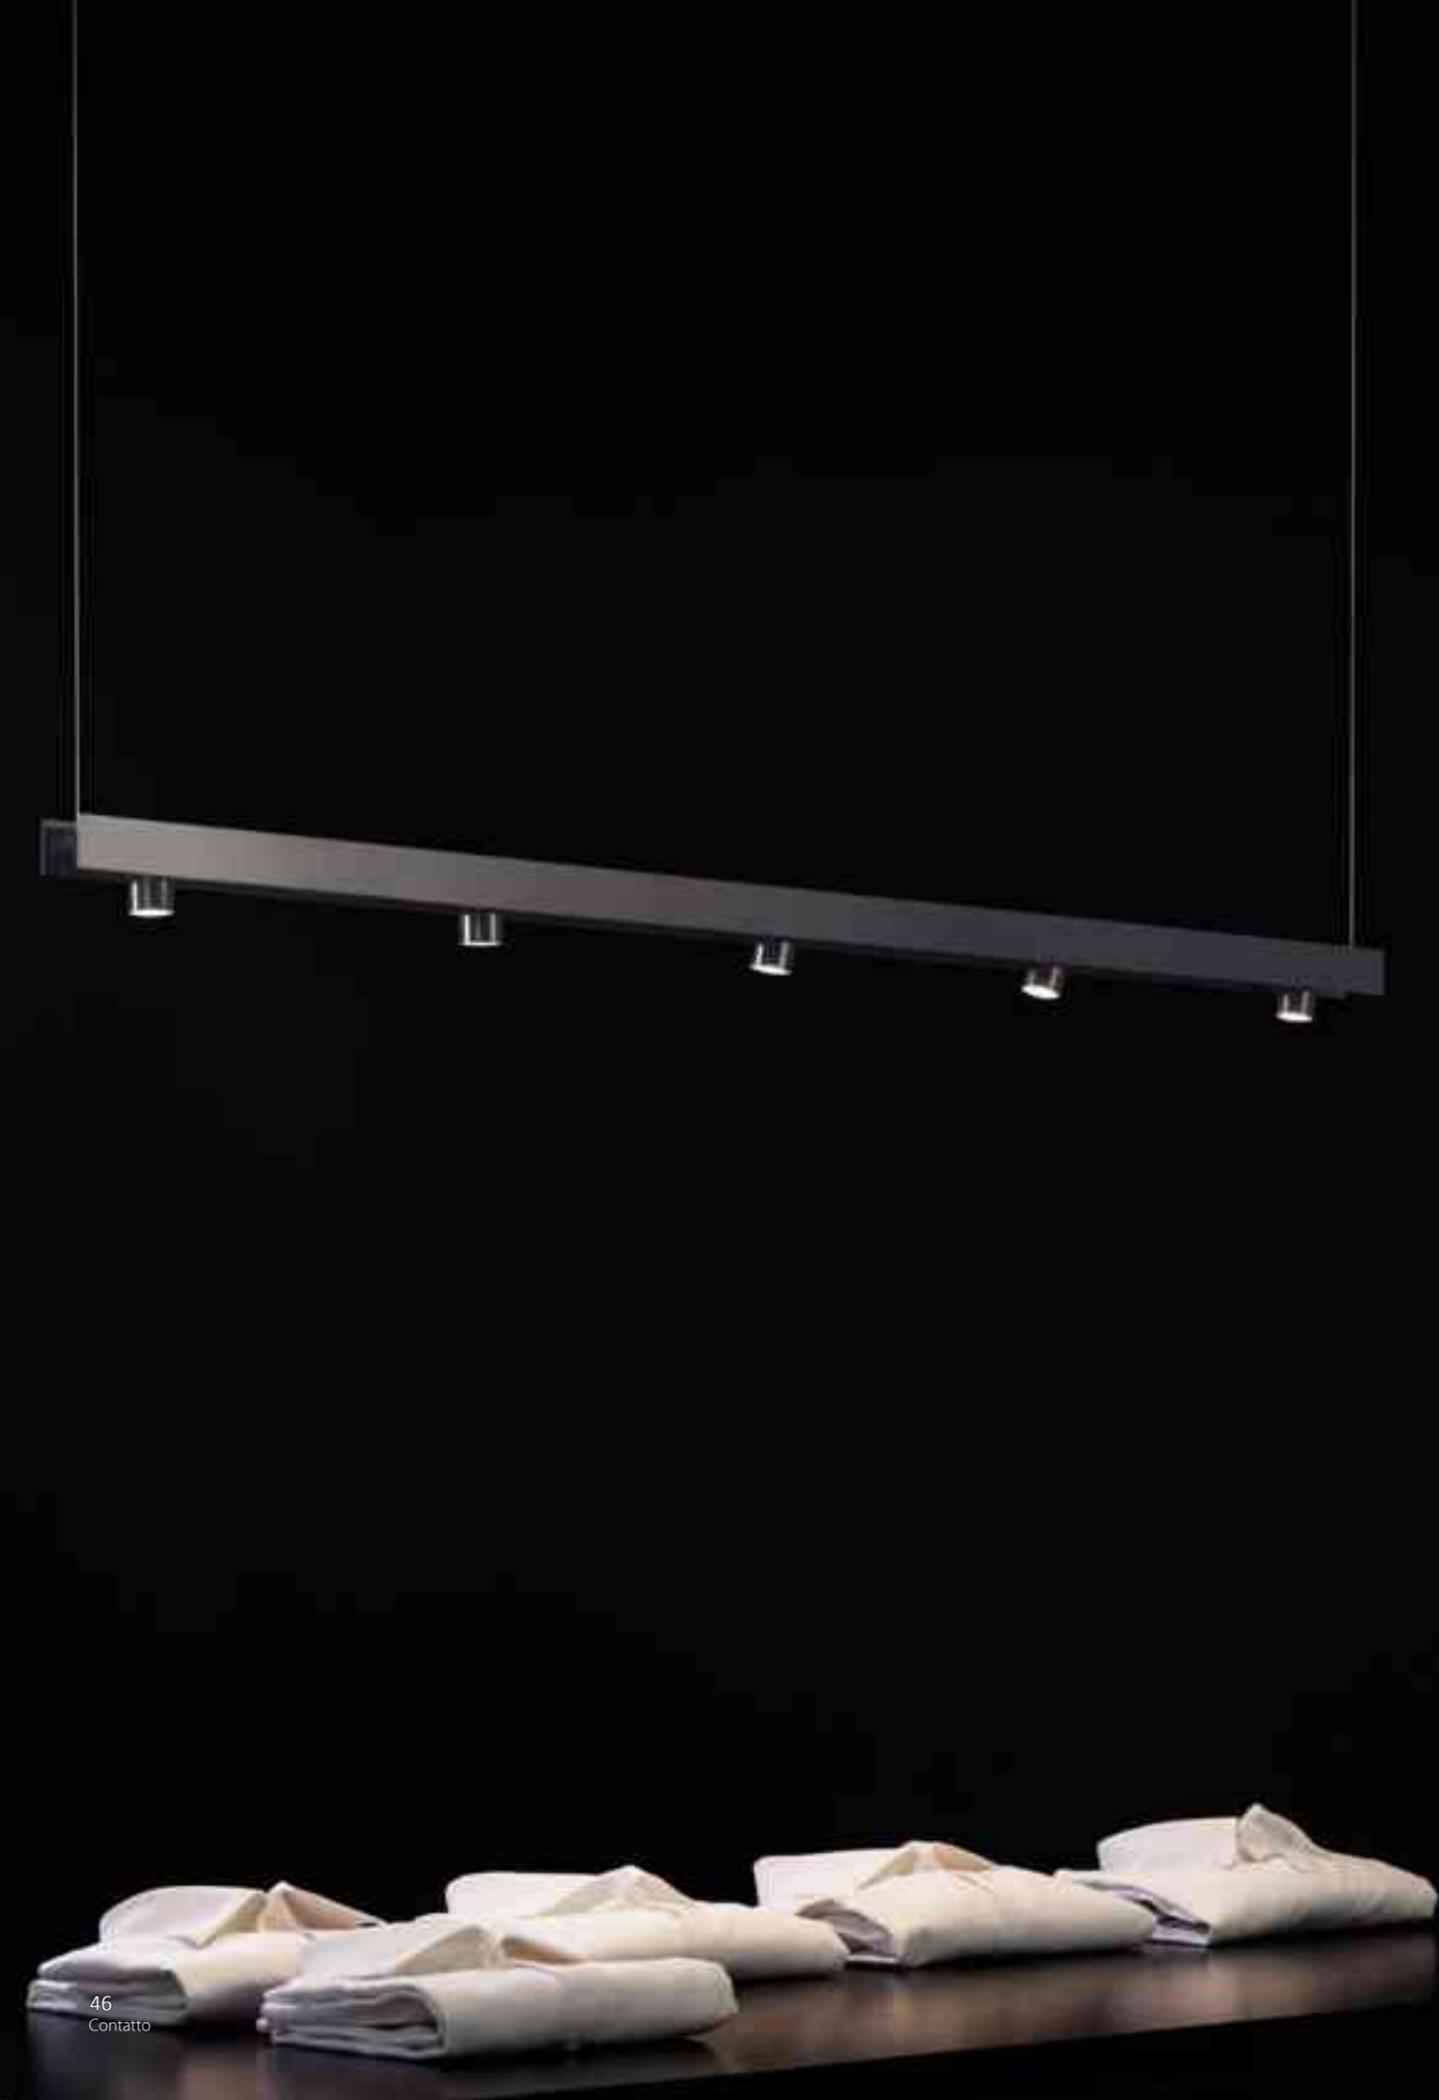

**C4** incasso singolo, spot incluso, alimentatore non incluso/ single recessed lamp, one spot included, driver not included

# ARMONICA

design Theo Sogni 2010

# ARMONICA

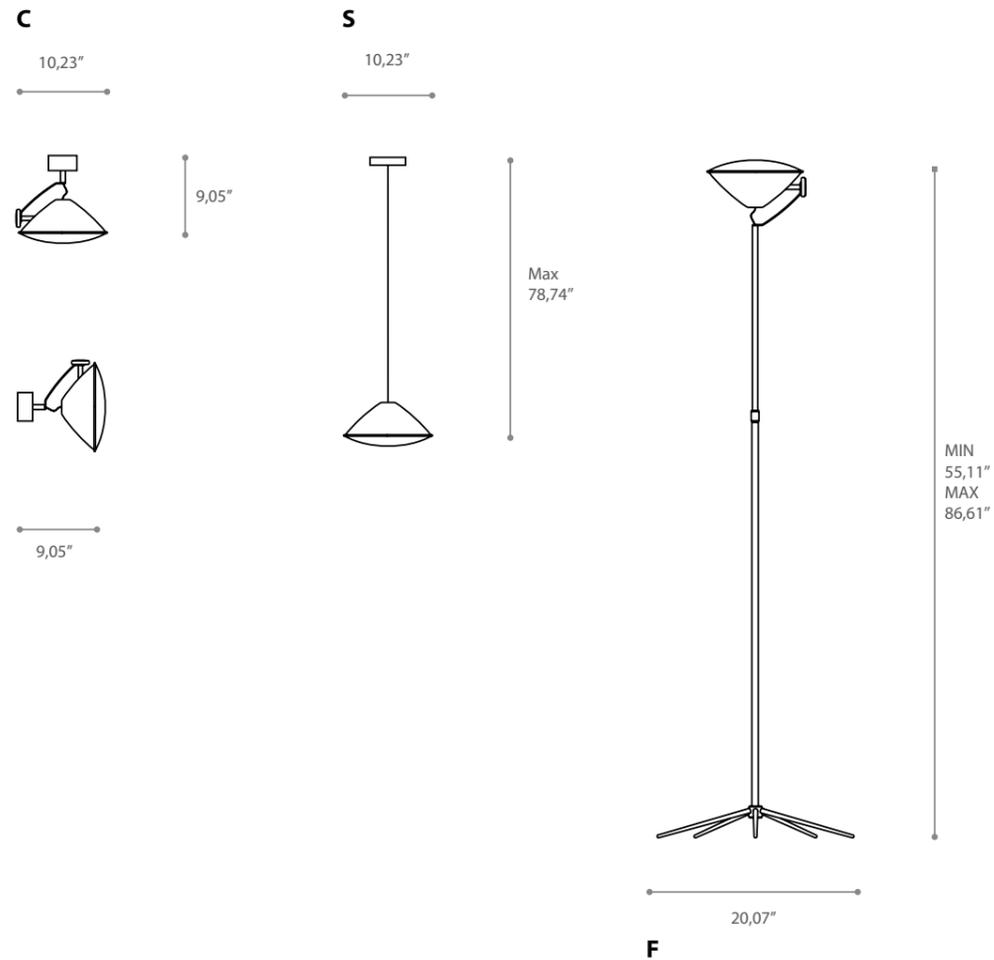

design Theo Sogni 2010

Armonica nasce da una ricerca progettuale orientata al recupero formale e stilistico dei tratti che hanno reso unico il design negli anni '70, con soluzioni e razionalizzazione d'uso innovativi. Si è ottenuta una lampada orientabile da terra, parete e soffitto, ad alta potenza luminosa, dai tratti armonici e forte identità: per ampi e differenti impieghi. Leggerezza, duttilità e facilità nella manutenzione sono ulteriori plus di Armonica. Materiali: metallo cromo, oro, rame satinato e vetro borosilicato

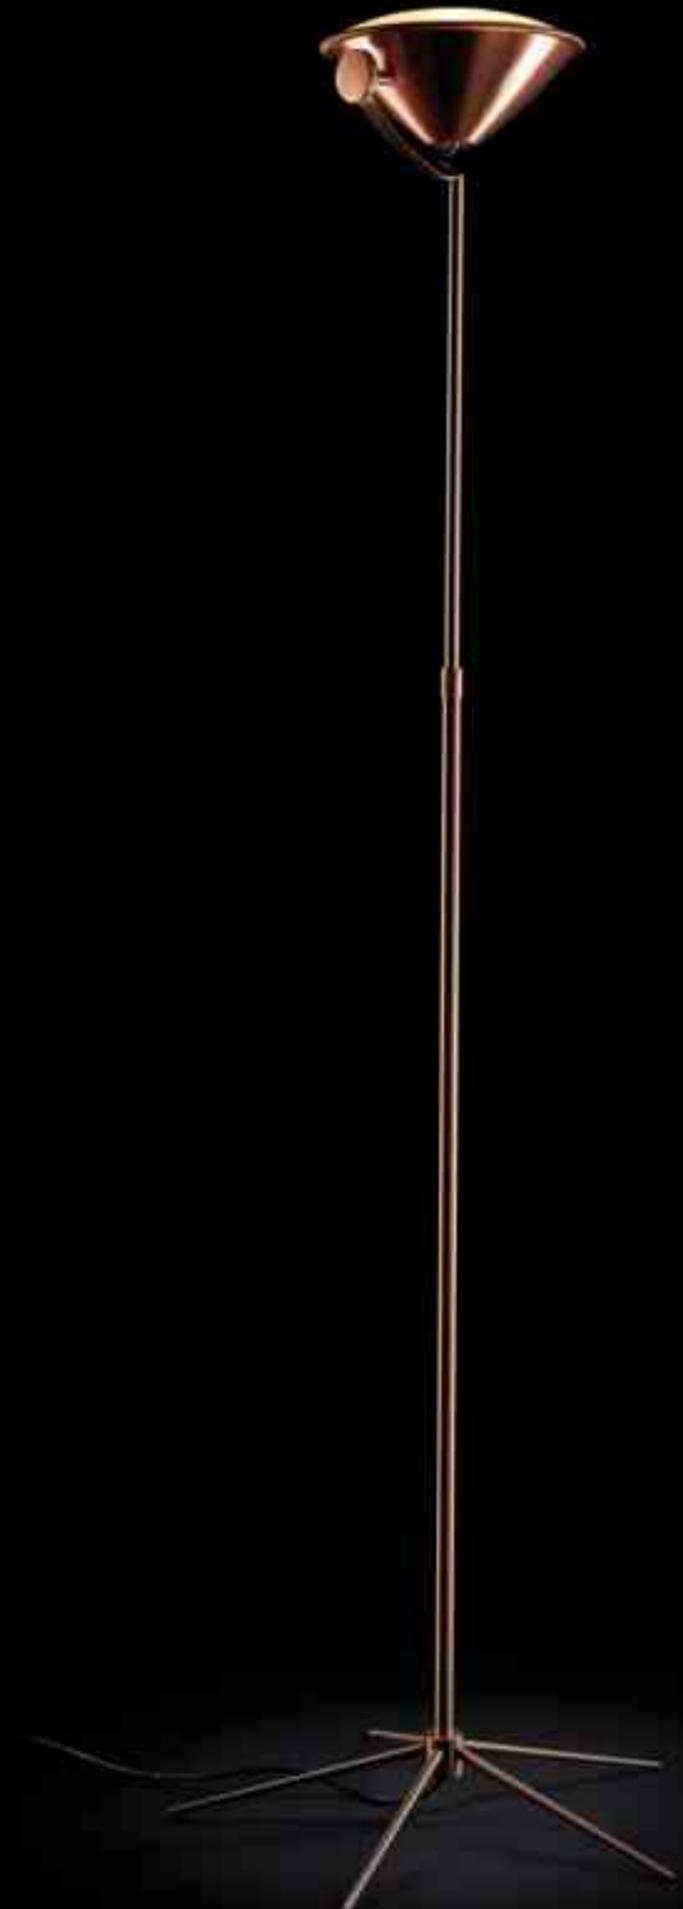

*Armonica arises from a planning research aimed to the recovering the formal and stylistic traits that have made unique the design in 70's, with innovative solutions and use efficiency. We obtained an adjustable floor, wall and ceiling lamp, with high power, with harmonic line and strong identity for a large and different uses.*

*Lightness, flexibility and low maintenance are additional plus of Armonica.*

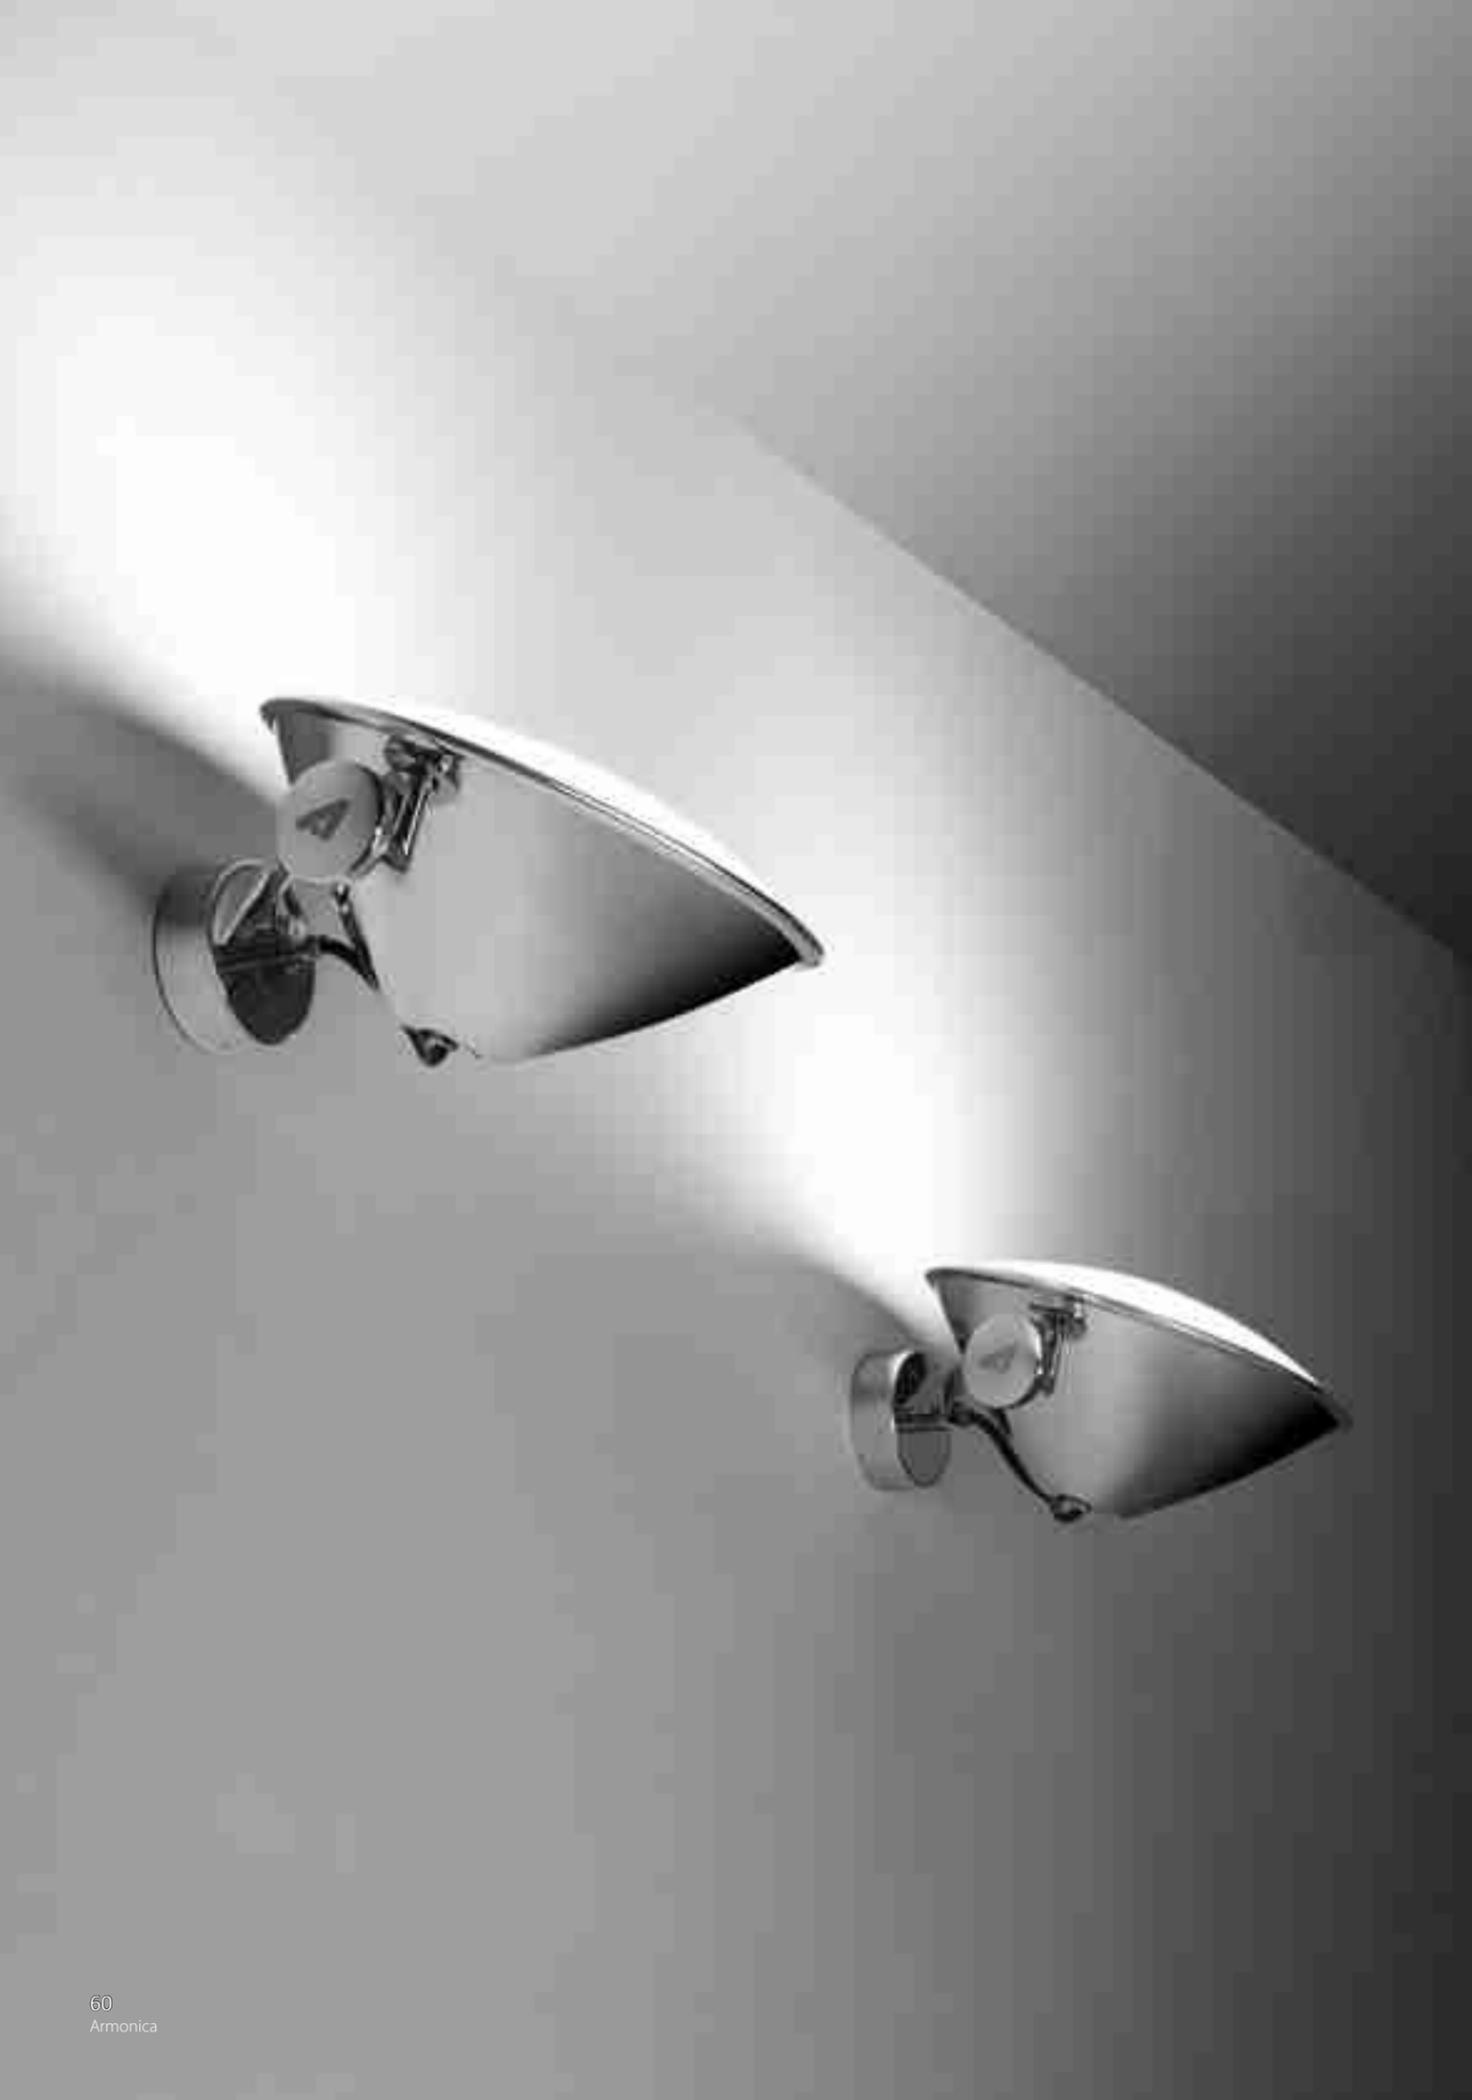

*Materials: chromed, gold and brushed copper metal and borosilicate glass*

# CINEMA'

design Theo Sogni 2014

# CINEMA'

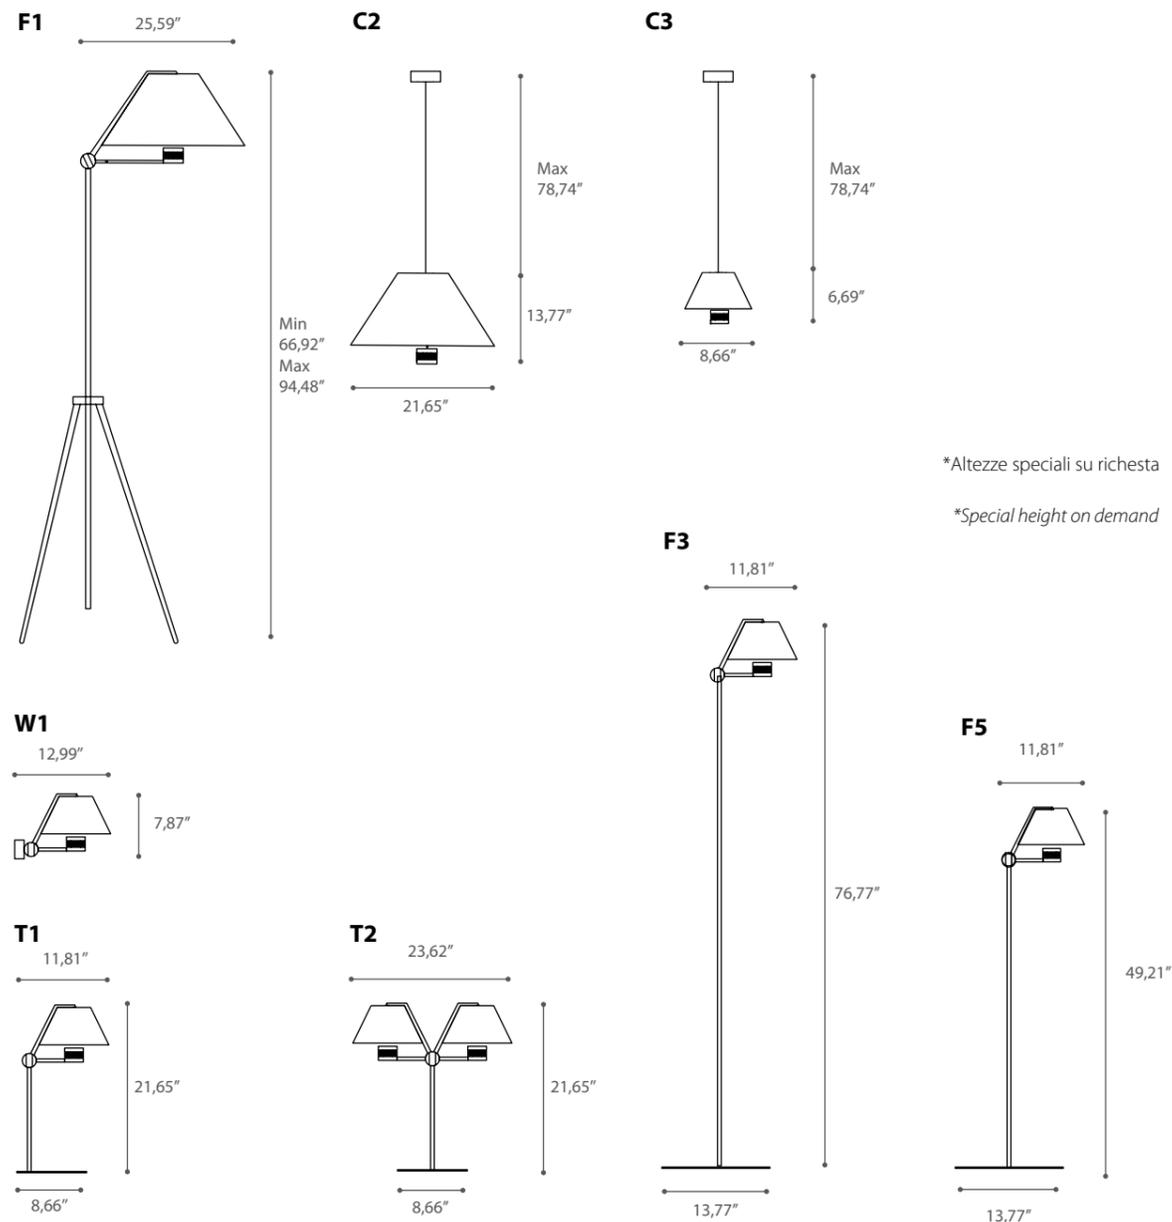

design Theo Sogni 2014

La collezione Cinemà si ispira alle lampade utilizzate nei set cinematografici. Proiettori LED illuminano l'interno dei diffusori che restituiscono luce riflessa senza abbagliare. Le versioni con l'interno in foglia oro generano una luce preziosa, calda e confortevole. I diffusori sono orientabili per direzionare la luce nel punto desiderato.

Materiali: metallo nero/interno foglia oro, bianco/interno foglia oro o bianco. Alluminio/interno alluminio. Bronzo/Foglia rame

The lamps which illuminate the film sets have inspired the collection Cinemà. LED headlamps illuminate the interior of the diffusers that return reflected light without glare. Some versions with the gold leaf inner part create a warm and comfortable light. The diffusers are adjustable to direct the light as desired.

Materials: black metal / gold leaf inner part, white / gold leaf or white inner part. Aluminum / aluminum inner part. Bronze/Copper leaf.

# MAMAMIA

design Theo e Silvia Sogni 2003

Progetto che riprende ed attualizza formalmente alcuni segni che hanno caratterizzato il design nordico, unendoli ad atmosfere luminose di sapore orientale. Nove anelli in metallo vengono montati su un telaio metallico a formare lampade da terra, parete, tavolo, sospensione e plafone. Dalla fonte luminosa, posizionata all'interno del volume, si irradia una luce netta e precisa che genera sulle superfici effetti e riflessi suggestivi. Finiture: bianco, alluminio, nero con interno alluminio, bronzo con interno foglia rame, foglia oro, foglia argento e foglia rame.

The project take again and make formally actual some signs which characterize the Nordic design and combine them to luminous atmosphere with an oriental taste. Nine metal rings with different diameter was assembled on a metallic for floor, wall, table, suspension and ceiling versions. From the light source, which is situated inside the volume's lamp, radiates a clear light which creates suggestive effects and reflexes on the external surfaces of the rings.

Finishes: white, aluminium, black with aluminium inner part, bronze with copper leaf inner part, gold, silver and copper leaf.

Una “colata” di luce unica e irripetibile, numerata.  
*A unique and unrepeatable “stream” of light, in limited edition.*

# UNICA

design Theo Sogni 2011

Unica è realizzata grazie all'utilizzo dell'antica tecnica della “fusione in terra”: lavorazione generalmente adoperata dagli scultori per ottenere esemplari unici o multipli di opere in metallo come il bronzo, l'alluminio, il rame e l'ottone. La millenaria e artistica esecuzione, viene praticata da pochi artigiani che si tramandano il “mestiere” di padre in figlio, rinnovando la passione. Unica simboleggia con il proprio nome l'unicità della lavorazione, l'unicità dei pezzi, che sono singolari e diversi fra loro. Ogni colata infatti, sembra avere un proprio “DNA”: dovuto ai segni sulle superfici della materia, che prelevata dal fuoco allo stato liquido, viene versata nel calco in terra per ottenerne la forma. Unica è numerata e prodotta in serie limitate.

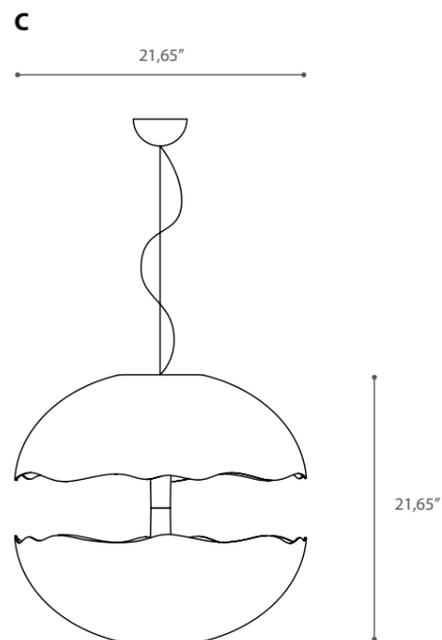

*Unica is realized by using the ancient technique of “sand casting”: a process usually used by sculptors for individual pieces or multiple of works in metal such as bronze, aluminium, copper and brass. The ancient and artistic execution is carried out by a few artisans who hand down the “trades” from father to son renewing passion. Unica symbolizes with his name the uniqueness of the process, the uniqueness of the pieces, that are unique and different. In fact, each casting seems to have its own “DNA” due to the signs on the surface of the material, that taken from the fire in the liquid state, is poured into the mould in the ground to get the form. Unica is numbered and produced in limited quantities.*

# UNICA

design Theo Sogni 2011

Sospensione in alluminio fuso "in terra".  
Finiture: alluminio lucidato a specchio, nero ghisa con interno oro o argento. Rame, interno rame  
Fonte luminosa: LED GU10 8W esterno - Circuito LED 6W 3000°k interno, doppia accensione.

# NOVECENTO

design Claudio Bitetti 2009

Novecento mette a confronto una delle icone più significative del secolo scorso con una delle correnti artistiche più esemplari dello stesso. Abat-jour e Ready-made: l'oggetto e la sua trasformazione in qualcos'altro. Novecento nasce da un'ispirazione che raccoglie una tradizione e la trasforma con ironia.

Materiale: vasi in ceramica bianca e oro, diffusori in tessuto bianco e tecnopolimero oro. Struttura: metallo.

*Novecento compares one of the most significant icons of the last century with one of the most considerable artistic current of the same one that are Abat-jour and Ready-made: the object and its transformation in something else. Novecento borns from an ispiration that collects a tradition and transform it with irony. Material: white and gold ceramic pots, white fabric shades and gold technopolymer. Metal structure.*

Accartocciare la luce per dargli forme sempre diverse.  
*Curl the light to get an infinite variety of shapes.*

# DOLCEVITA

design Theo Sogni 2011

# DOLCEVITA

design Theo Sogni 2011

Lampada da terra con diffusore in purissimo polietilene bianco, riciclabile, privo di sostanze tossiche e resistente all'acqua. Il materiale, brevettato e normalmente utilizzato in architettura da molti anni, protegge gli edifici da umidità e agenti atmosferici: con Dolcevita trova una nuova applicazione. La forma conica è in parte trasformabile attraverso la manipolazione libera, che consente di modellare, variare l'altezza (da 170 a 210 cm), e stropicciare la materia, personalizzando il "corpo" della lampada e il suo effetto luminoso.

Leggero e consistente, il diffusore di Dolcevita, si illumina totalmente, filtrando una luce morbida, confortevole, mettendo in evidenza una texture materica che ricorda la carta di riso.

Materiali: polietilene bianco

Struttura: metallo e policarbonato

Fonte luminosa: lampadine halo-spot

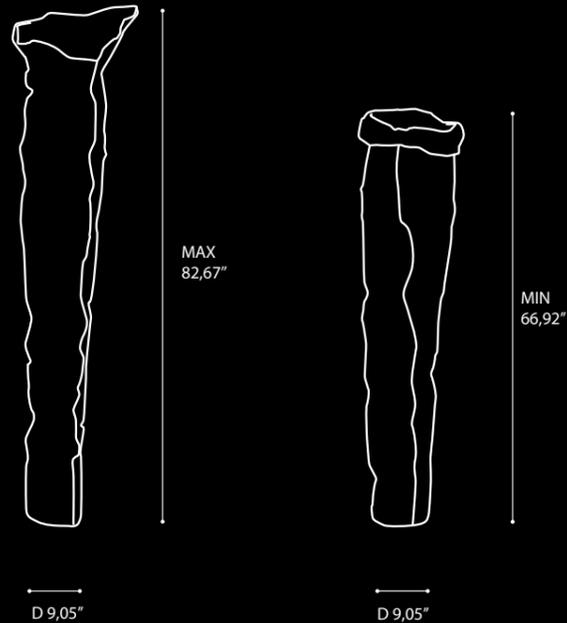

di nuova generazione o LED

*Floor lamp with pure white polyethylene shade, recyclable, free of toxic substances and water resistant. This material that has been patented and is normally used in construction field for many years to protect buildings from moisture and weather, finds with Dolcevita a new application. The conical shape is partly convertible by manipulating free that allows to model, to vary the height (from 170 to 210 cm), and to rubbing the material, customizing the "body" of the lamp and his lighting effect. Light and consisting, the Dolcevita's shade, lights completely and filters a soft, comfortable light that emphasizes the material texture reminiscent of the rice paper.*

*Materials: White Polyethylene*

*Structure: Metal and Polycarbonate*

*Light source: new generation of light bulbs with low energy consumption or LED*

# MIAMI INDOOR

design Giordana Arcesilai 2010

La forma del diffusore di Miami rappresenta l'icona classica del paralume. Realizzato in vetroresina bianco caldo diffonde la luce morbida, accogliente e rassicurante.

Il materiale resistente all'urto e lavabile rende Miami utilizzabile ovunque e di facile manutenzione. Un cilindro di vetro borosilicato, all'interno del paralume, avvolge e scherma le fonti luminose per evitare abbagliamenti

Materiali: vetroresina bianco caldo e vetro borosilicato.

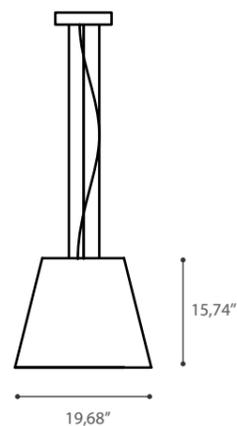

*Miami's shade represents the classic icon of the lampshade. Realized in warm white fiberglass diffuses a soft, cosy and reassuring light.*

*The material has a high resistance to crashes and is washable for this reason Miami can be used everywhere and is easy to maintain.*

*A cylinder in borosilicate glass inside the shade surrounds and fancies the lighting sources to avoid glare.*

*Materials: warm white fiberglass and borosilicate glass.*

# RICAMI

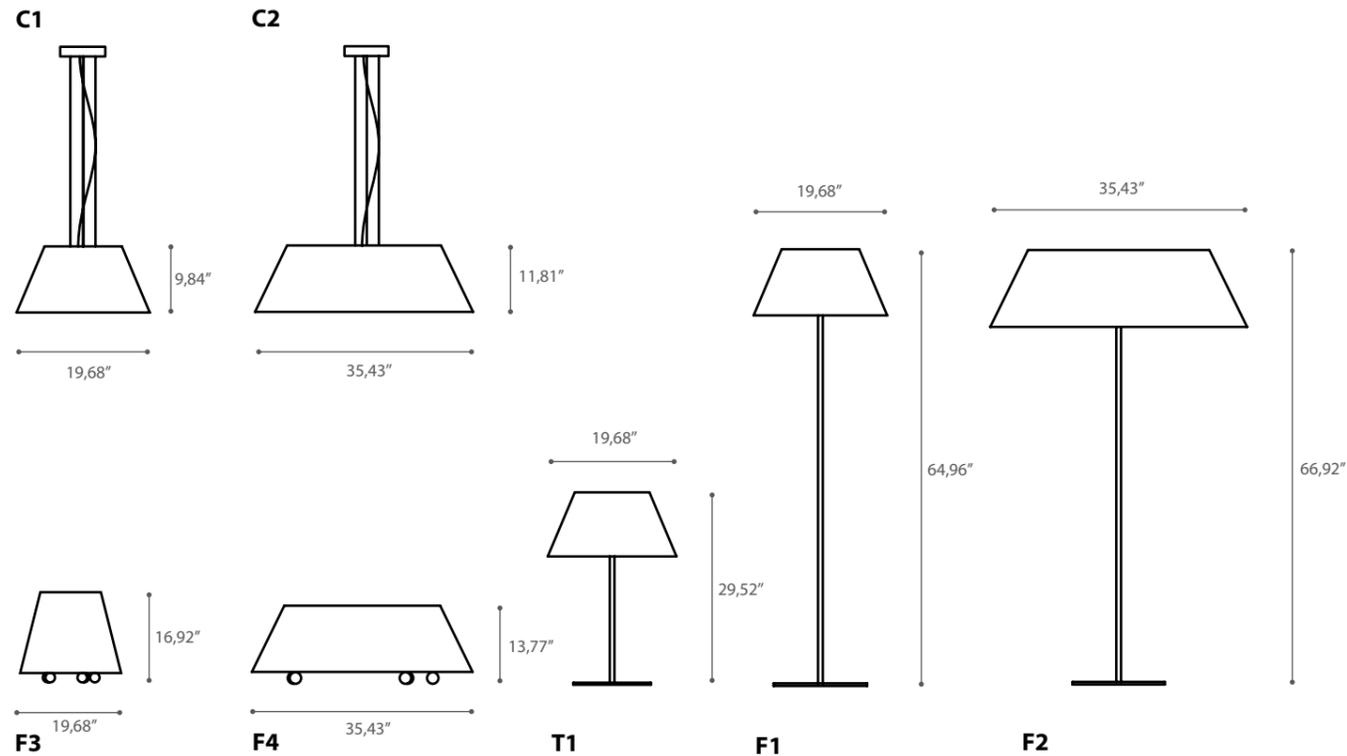

design Theo e Silvia sogni 2009

Pizzo Valenciennes e fibra di vetro accoppiati, danno origine a superfici materiche bidimensionali. Il rilievo prezioso e la trasparenza del tessuto si uniscono all'alta resistenza agli urti e alle intemperie della fibra di vetro. Questa originale tecnica, ideata da Antonangeli, ha permesso di ottenere volumi illuminanti di diverse forme ed utilizzi: come i paralumi, in due dimensioni per lampade da terra, tavolo, sospensione.

Materiale: fibra di vetro trasparente, pizzo Valenciennes bianco o nero, cilindro in vetro borosilicato. Struttura: verniciata bianca su pizzo bianco, bronzo ramato su pizzo nero. Oppure: i diffusori possono essere forniti senza pizzo.

*Valenciennes lace and fiberglass used together to create bi-dimensional surfaces. The unique relief and the transparency of the fabric joined with the high resistance to crashes and to weather-beaten of the fiberglass. This original technique, created by Antonangeli, has permitted to obtain lighting volumes with different shapes and uses: as by the shades that are available in two dimensions to create floor, table and suspension lamps.*

*Material: transparent fiberglass, white or black Valenciennes lace, borosilicate glass cylinder. Structure: white painted for the white lace, bronze copper coloured for the black lace. Or the diffuser can be supplied without lace.*

# FLEX

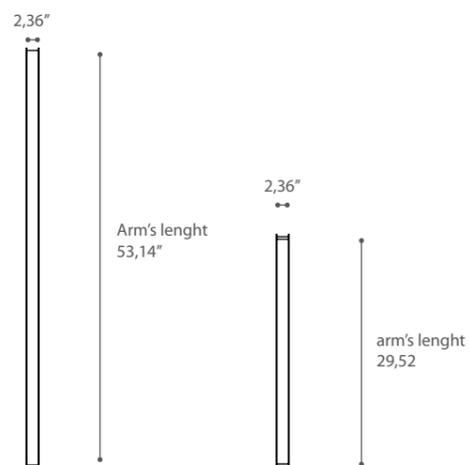

design Claudio Bitetti 2007

Flessibilità e astrazione sono i concetti che hanno portato alla realizzazione del progetto Flex: un sistema di luce dinamico che utilizza due bracci in due dimensioni, collegati tra loro attraverso uno snodo. Ruotabili a 180° i bracci permettono di illuminare spazi e cose secondo le necessità che mutano, anche quotidianamente. Flex è utile e duttile, un disegno essenziale che esalta la funzione della luce.

Struttura: verniciato bianco opaco, nero lucido

*Flexibility and abstraction are the concepts that are on the base of Flex project: a dynamic light's system using two arms of two different dimensions joined together by a joint. The arms can be turned to 180° and this permits to light spaces and objects as per the mutable needs of every day. Flex is useful and ductile, an essential drawing that exalts the light's function.*

Structure: white matt, black polish painted

# I-LUMEX

design Denis Santachiara 2009

I-lumex è lampada da tavolo con base o morsetto, parete, soffitto: un progetto che intende aprire una nuova stagione di apparecchi luminosi sempre più versatili e multifunzionali: sempre più amichevoli nell'utilizzo. Lampade con cui interagire: sempre più piacevoli e sensoriali; da toccare, da guardare...  
Fonte luminosa: led bianco naturale.  
Colori: bianco, antracite, rosso, lavanda

*I-lumex (table lamps with base or clamps, wall, ceiling), is a project that would like to introduce a new lighting fixture season, that will be more and more multifunctional: more friendly to use. Lamps to which it is possible to interact: more enjoyable and sensorial; to touch, to see...  
Bulb: led natural white.*

- Prima lampada con uscita USB (tavolo)  
*First lamp with USB out (table version)*
- Silicone: luminescente, morbido, tattile  
*Silicone: luminescent, softly, tactile*
- Orientabile e flessibile: facile da utilizzare  
*Adjustable and flexible: safe to move*
- Alta resa luminosa, basso consumo energetico  
*High power energy, low energy use*
- Potenza LED: durata 50.000 ore  
*Power LED: 50.000 hours last long*
- Sicura nel movimento, infrangibile  
*Easy to move, unbreakable*

## Twist

design Gianfranco Marabese 2015

Profilo di luce continua generata da un'estrusione in silicone al cui interno alloggia una strip LED.

Archetto Twist consente di realizzare linee curve o rette applicate in superficie o ad incasso.

Lunghezza massima profilo: 500 cm /taglio a misura ogni 5 cm

Strip LED bianco 3000/4000°K 500Lm C.A. al metro per entrambi.

Potenza 9,6W metro/24V/120 led per metro

Profile of continuous light generated by an extrusion of silicone housing a LED strip.

Archetto Twist allows to realize curved or straight lines applied to the surface or recessed.

Maximum length of the profile: 196,85" /cutting to measure every 1,96"

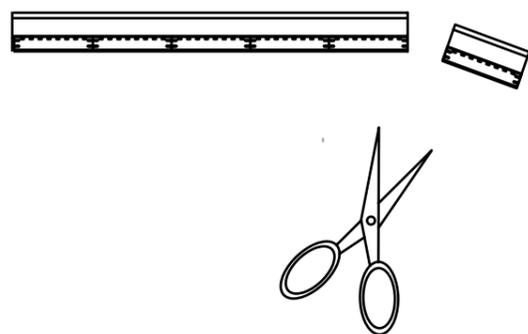

LED strip white 3000/4000°K, 500Lm C.A per meter for each one

Power 9,6W each Meter/24V/120 led per meter

A meter (mt) is 39,37"

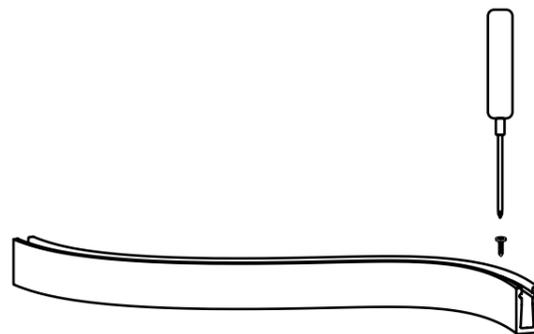

## Montaggio/Mounting

1

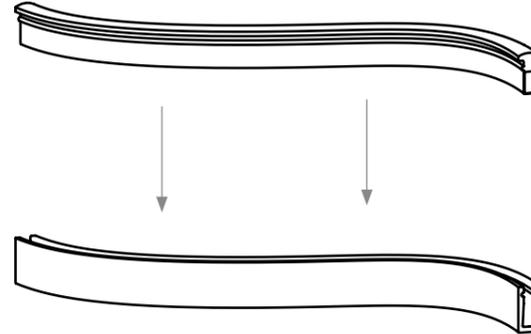

E' possibile tagliare Archetto Twist ogni 1,98"/  
It's possible to cut Archetto Twist every 1,98"

2

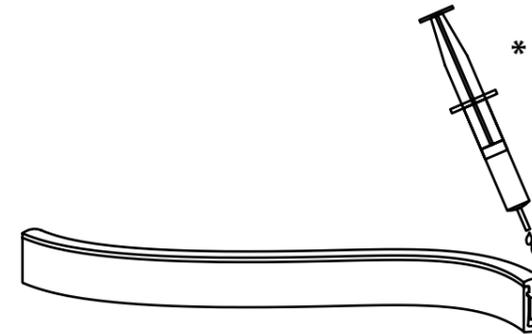

Fissare il supporto alla superficie/  
Fix the support on the surface

3

Inserire profilo luminoso sul supporto con leggera pressione/  
Insert the lighting side into the support with a light pressure

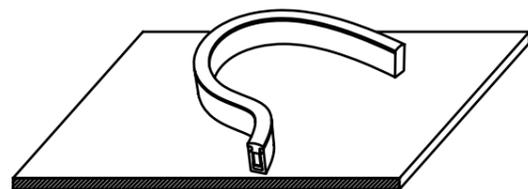

4

Sigillare le estremità con silicone speciale/  
Seal the ends with a special silicone glue

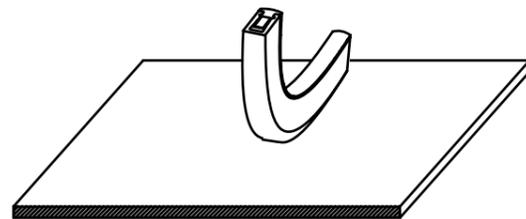

## Applicazioni/Applications

YES

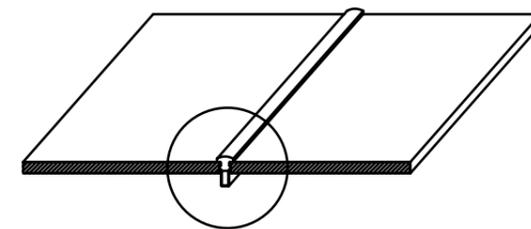

Piegare Archetto Twist tenendolo aderente alla superficie/  
Bend Archetto Twist keeping it adherent to the surface

NO

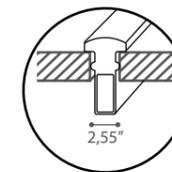

ATTENZIONE: non piegare Archetto Twist nel verso sbagliato/  
WARNING: do not bend Archetto Twist over the wrong direction

## Applicazione ad incasso/Inlay application

Inserire la parte luminosa in un taglio di larghezza max 2,55"/  
Insert the lighting side in a cut 2,55" of width

# POLLICINO

design Giordana Arcesilai 2007

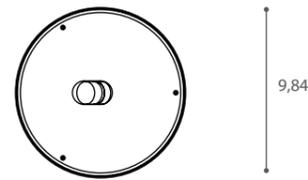

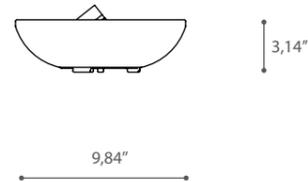

# POLLICINO

design Giordana Arcesilai 2007

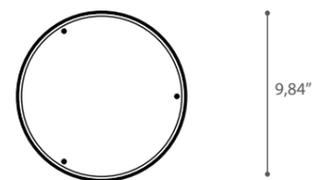

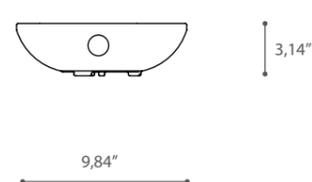

Pollicino nasce come segna-passo e luce d'accento orientabile per evidenziare alberi, sculture, architetture. Non deve essere incassato nel terreno, solo appoggiato e utilizzato singolarmente o collegato in sequenza, in modo facile e sicuro. L'installazione non fissa consente di variare l'illuminazione a seconda delle necessità. Può essere impiegato anche in interno, come luce di cortesia per la notte o di accento per le piante domestiche.  
Struttura: fusione in alluminio naturale o verniciato bronzo, chiusura superiore in metacrilato bianco.  
Spot a doppio Led bianco/bianco, blu/blu, bianco/blu, bianco/ambra, ambra/ambra.

*Pollicino borns to be used as steps' sign and as swinging lamp to emphasize trees, sculptures, architectures. You have only to put it on the floor without setting it and can be use singularly or joined in sequence in a easy and safe way. The movable installation permits to change the lighting as per your needs.  
Can be used also on the inside as courtesy light by night or as lighting accent by the indoor plants.  
Structure: natural aluminium fusion or bronze painted, upper cover shade in white metacrylic. Double LED white/white, blue/blue, white/blue, white/ambre, ambre/ambre.*

# I-SNAP

industrializzazione Davide Cavalli 2007

Leggera lampada costituita da una fonte luminosa a LED e da una asta in rame duttile che permette di direzionare la luce ed ottenere gli effetti luminosi desiderati.

Utilizzabile singolarmente o in aggregato per esilità visiva e dimensioni della fonte luminosa, è una illuminazione ideale per piante in vaso o cespugli. Il rame non trattato e duttile, consente nel tempo un'integrazione formale e visiva con i rami delle piante e una ancor più compatibilità della fonte luminosa con il paesaggio.

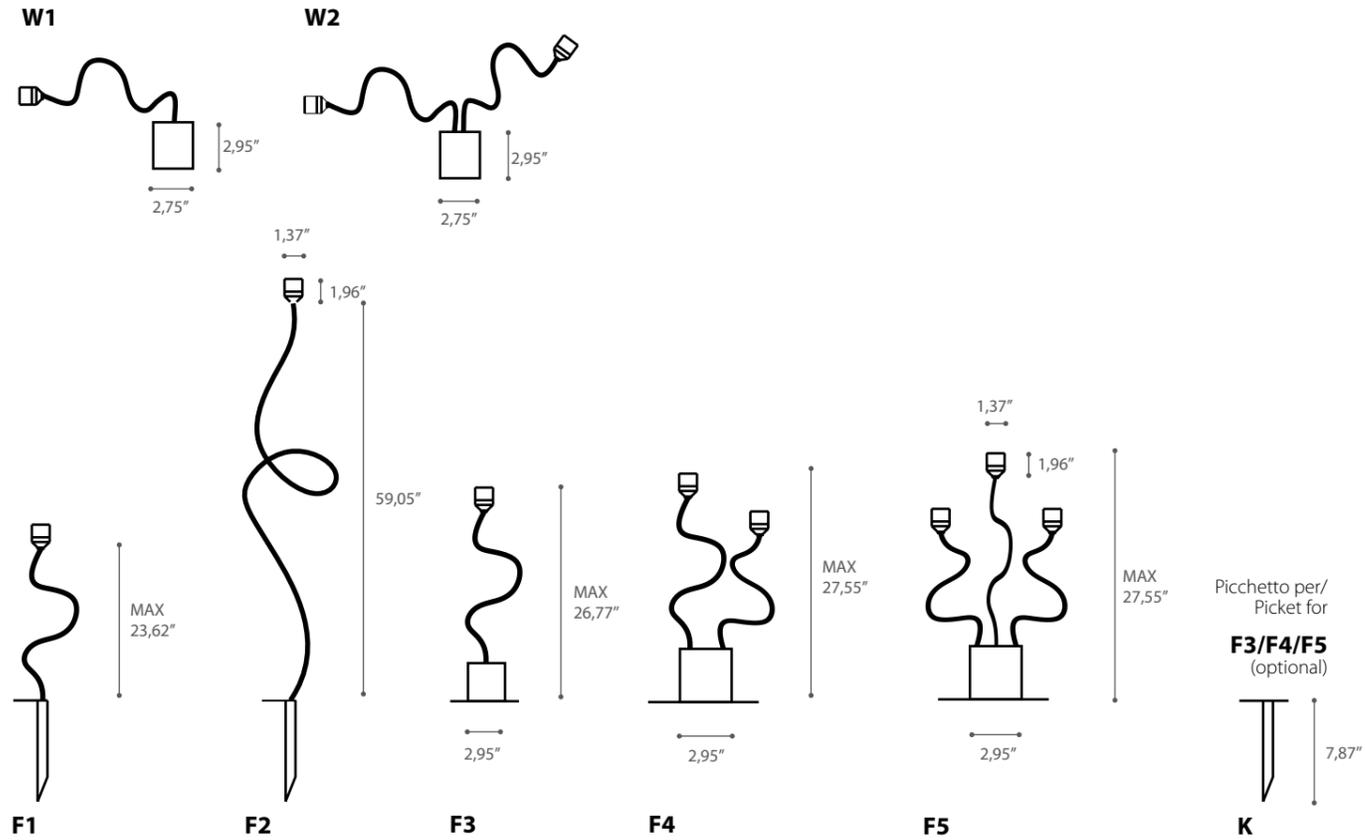

Struttura: asta in rame duttile a picchetto alta 60 e 150 cm; le versioni da parete e sospensione sono disponibili cromo satinato o rame con attacchi bronzo.  
LED bianco, blu o ambra.

*Light lamp powered by LED and formed by a copper adjustable rod that permits to direct the light as you want creating the desired lighting effects. To be used singularly or together with other elements. Its slighness and its bulb's dimensions permit to use and to camouflage it into flower pots or into bushes. The copper is not processed and permits with the passing of time to camouflage it through the tree's branches permitting a perfect fitting of the light source inside the landscape.*

*Structure: copper ductile picket rod to 60 and 150 cm. height.; wool and suspension versions are available satined crome or copper with bronzed hook.  
LED available in white, blue or ambre.*

Installation note 1: models F3/F4/F5/W1/W2 come with integral driver

Sistema di alimentazione e processo di connessione

Converter system joining and Connecting process

## PROCESSO DI CONNESSIONE A PULSANTE MORSETTO RAPIDO CONNECTING PROCESS WITH BUTTON CONNECTING TERMINAL

Prendere il pulsante di connessione in dotazione.  
Take the connection bottom given as equipment.

Infilare i cavi senza spelarli a filo del suo contenitore.  
Insert the wires without stripping them.

Accertarsi che siano infilati fino in fondo.  
Be sure that the wires are inserted till the end.

Con una pinza premere il pulsante arancio.  
Using a tool to push the bottom till the connector's blade.

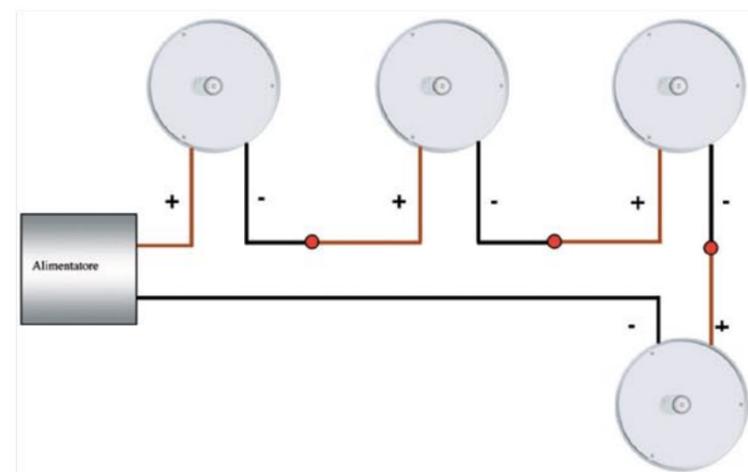

Dal foro uscirà un gel trasparente che preserverà la connessione dall'umidità.  
From the insertion's hole come out a transparent gel that will protect the electrical connection from the umidity.

A questo punto la connessione è riuscita.  
The connection is succeded.

# PULCINELLA

design Giordana Arcesilai 2009

Un raffinato segnapasso da installare a parete che nella sua morbida forma incorpora la tecnologia led, completa del suo alimentatore. Pensato per le situazioni in cui non è possibile l'incasso (scale, passaggi, camminamenti): nasce spontaneo dalla parete. La sua forma morbida si ispira al classicismo di una cornice, di un capitello. ed è disponibile in diversi colori, neutri per scomparire, ricercati per "apparire".

Materiale: fusione d'alluminio anticorrosione, alluminio naturale, bronzo. LED bianco, alimentatore incorporato. IP65

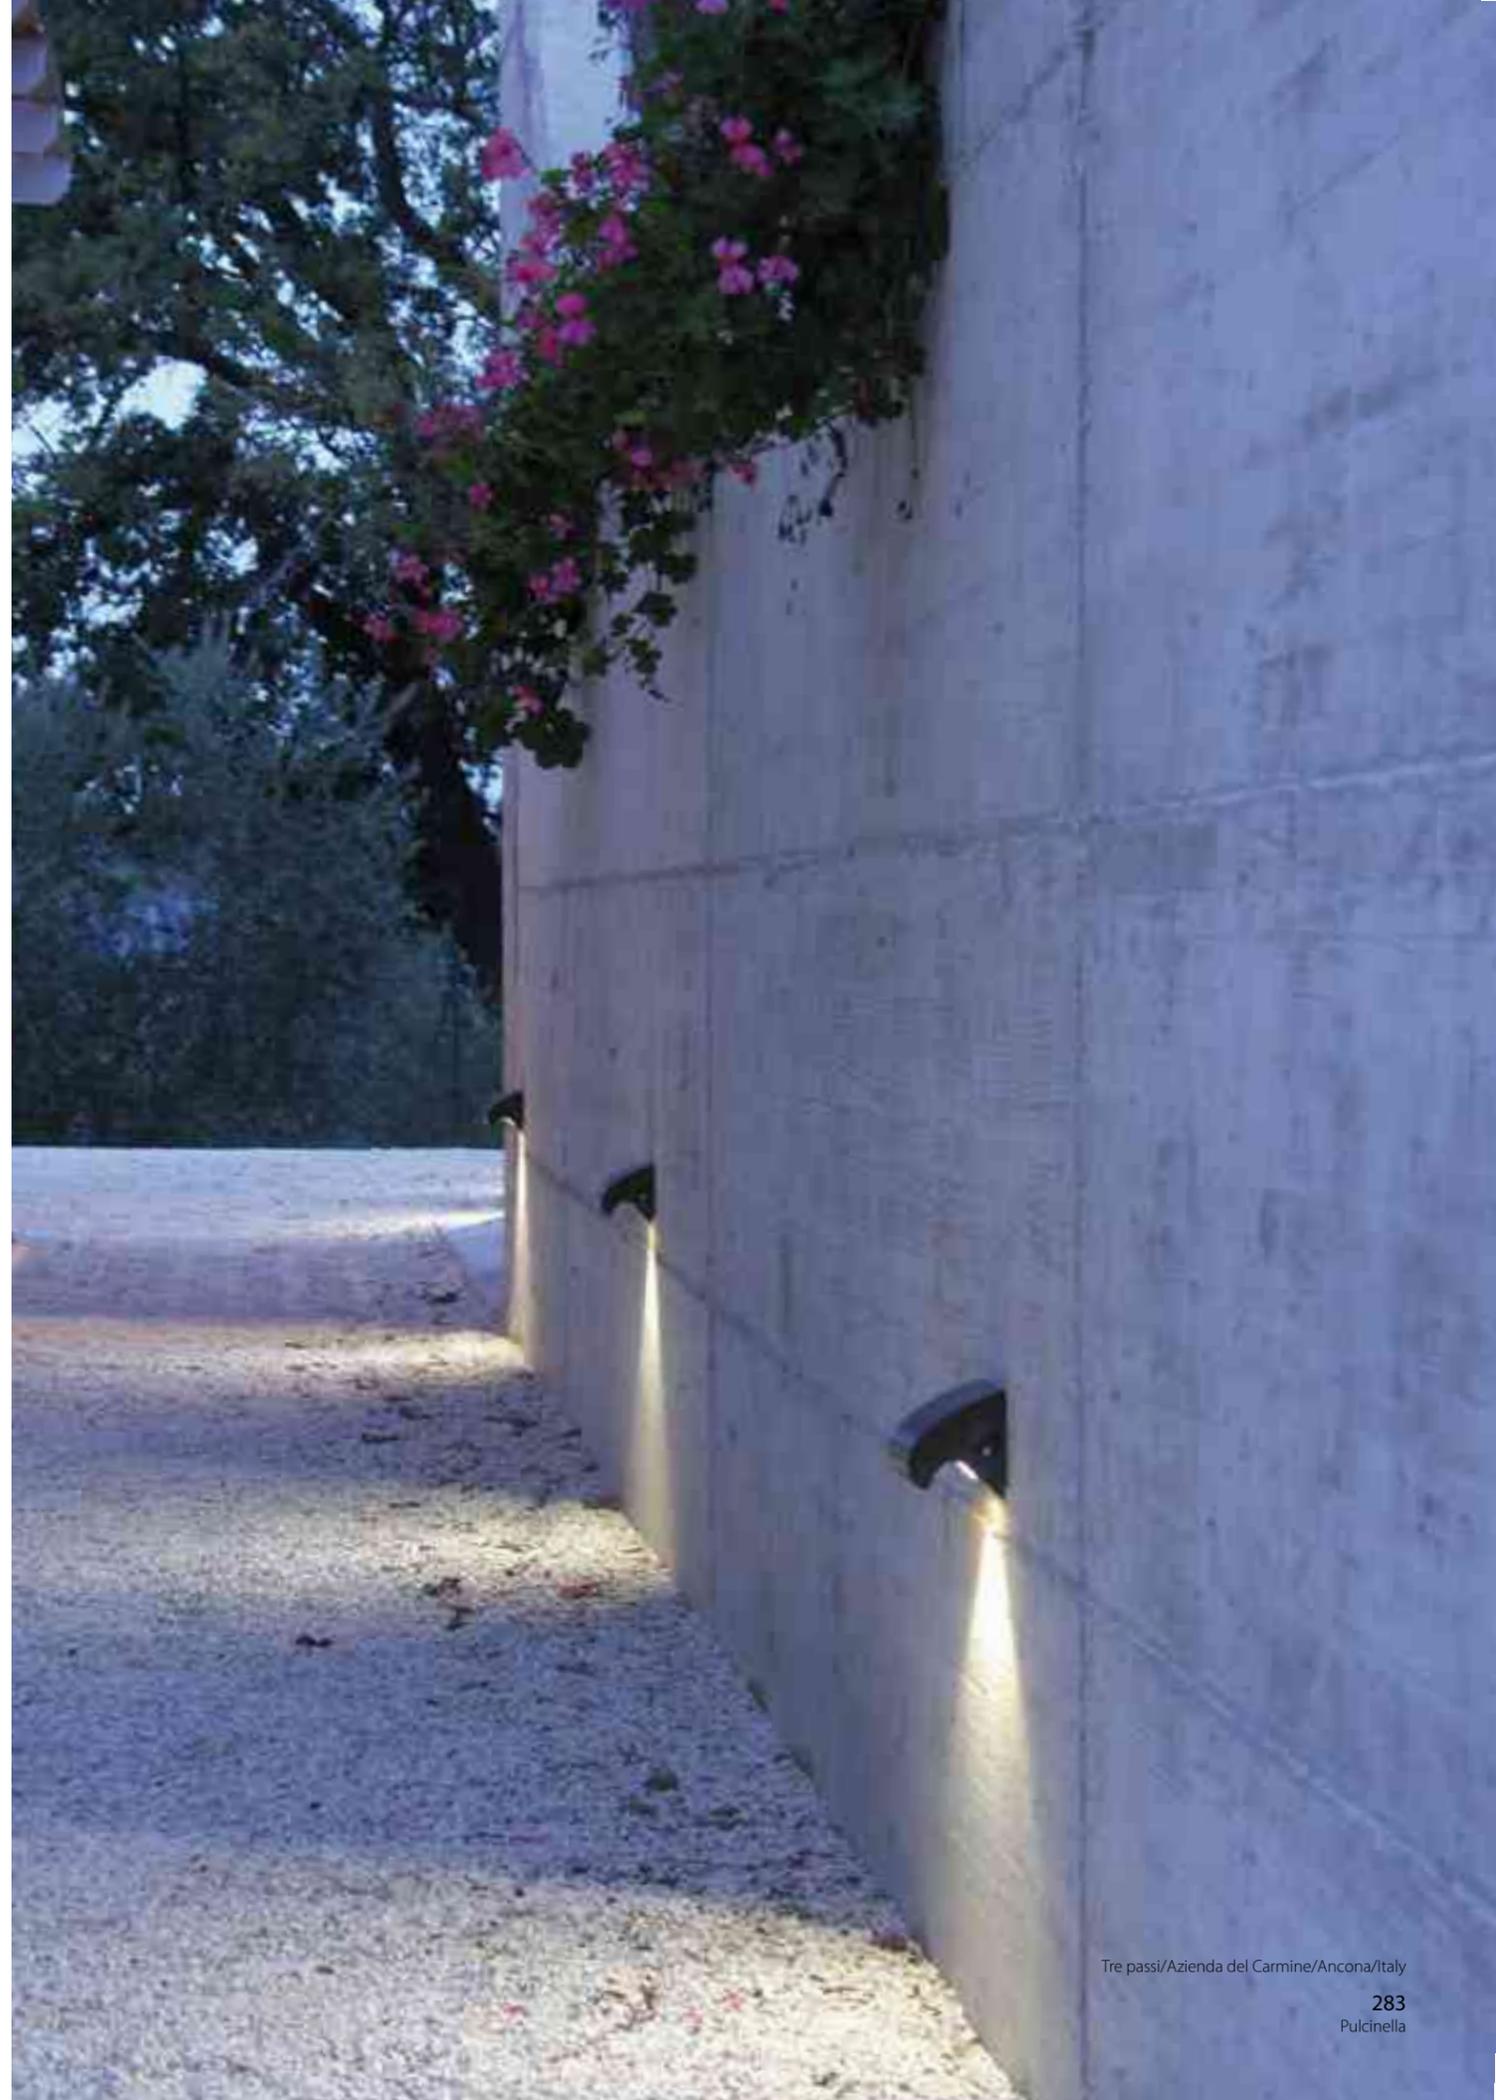

*A fine steps' sign to be mounted on the wall, that includes in its soft form the led technology, with its own transformer. Designed to be used where it is not possible to mount lamps (stairs, gangways, passages): it borns spontaneous from the wall. Its soft form takes inspiration from the classicism of a frame, of a capital and it is available in several colours: neutral to disappear, refined to "appear".*  
Material: aluminium die-casted anti-corrosion, natural aluminium or bronze; white LED driver included. IP65

Installation Note: Mounts to a 2" x 3" horizontal mounted junction box

LED 1W 350mA (105lm) driver included
