PROJECT NAME:

SPECIFICATION SHEET

RA is an innovative collection: in the personalized use of light and 'essentiality of design. Inspired by the ancient Egyptian god from whom it takes its name, RA incorporates the power and majesty of the sun, blending design and mythology.

Thin segments of light arranged in rays and set in perfect circles give shape to the lamp. The easy rotation of the independent light segments allows the lighting to be modulated and directed according to the specific needs of the user: to create exclusive atmospheres and settings. RA is an innovative collection: in the personalized use of light and 'essentiality of design.
